-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2-4 and 9-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 2 and 15, the terms "encroaches" and "encroached", respectively, and "a single seat location" are vague and indefinite since it is not clear what structural limitation is implied by the encroaching terms and it is also not clear if a "seat location" requires a seat to be present at the location or if it is only a potential location of a seat. In claims 3, 18, and 21, "non-traversing" is vague and indefinite since it is not clear what is not being traversed, or what structural limitation is implied. In claims 4, 10, 11, 17, 20, 22, and 27, the terms "associated" or "associating" are vague and indefinite since it is not clear how the modules are associated with a seat or what structure is implied. In claims 9, 19, and 26, the term "laterally facing" is vague and indefinite since it is not clearly defined what lateral direction is being referenced. In claim 10, it is unclear how the upper portion of stairs "provides access to a row of seats ...." It appears from the disclosure that the upper part of the stairway is merely placed to avoid blocking access to another row of seats.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-6, 9-12, and 14-19 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Canta et al.

See especially Figure 11 and the stairs providing access to the upper module.

Art Unit: 3644

5. Claims 7 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claim 13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

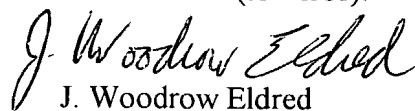

7. Claims 20-27 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Olliges et al, Mills, Cheung, Moore, Hohnson et al, and Legrand are cited as being of interest since they disclose aircraft with rest areas.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Woodrow Eldred whose telephone number is 703-306-4151. The examiner can normally be reached on Monday to Thursday, from 8:00 a.m. to 5:30 p.m..
